Assignment of Plotting

Refer to the tips.csv dataset. The dataset contains total 244 tips(data about customers served by a restaurant) across 7 different columns.

- totbill - Total bill (cost of the meal), including tax, in US dollars
- tip - Tip (gratuity) in US dollars
- sex - Sex of person paying for the meal (0=male, 1=female)
- smoker - Smoker in party? (0=No, 1=Yes)
- day - Sun, Sat, Thu, Fri
- time - Night and Day
- size - Size of the party

1. Plot a day wise boxplot of totbill column.

2. Plot a pariplot by setting hue parameter t
